Ryan Cohen

Jackson, New Jersey

☎ (908) 839-3634 • ✉ notryancohen@gmail.com

OBJECTIVE

I am ambitious, creative, and very curious. My objectives are to learn more about my craft, build effective solutions, and make a change.

POSITIONS

Software Developer, McRoberts Protective Agency, Inc

12/2012 - current

I work on iOS and Android solutions, and have contributed to software that is being used in production.

Cashier, Knockout Pizza

11/2011 - 4/2012

I worked on phone orders, cash management, and also helped out in the kitchen.

EDUCATION

, Computer Science

Jackson Liberty High School,

Started a Computer Science club, joined Key Club.

SKILLS

Software Development

○ Objective-C
○ Xcode
○ Parse API
○ API Design
○ Git
○ SVN
○ SQL
○ I am familiar with many other languages as well, and am very ager to further my knowledge in them.

ACHIEVEMENTS

WWDC 2012

I was granted a student scholarship to WWDC 2012 in San Francisco, CA.

Winter CodeDay NYC Hackathon - Best Application Award

I worked alone and built Codefriend, an app to connect developers, designers, and others alike.

Spring CodeDay NYC Hackathon - Best Application Award

I worked alongside a good friend of mine, and built Quo, an app where users can portray their creative mind through literature.

PROJECTS

Quo

Taptics

iOS Developer

5/2014 - current

Quo is an app where users can portray their creative mind through literature.

VOLUNTEER

Volunteer, The Goddard School

Children

I volunteer at my old preschool and read stories to the kids.
